"WHO DOMINATES YOU?"

You have probably heard a sports-caster say of the victorious team that it dominated the game. What he means is that from the first of the game 'till the end they were in control of the game and the outcome was decided. And in spiritual consideration it becomes evident as to whether a person is really a Christian or a fake by that which dominates his life. I don't want to sound negative, but for your soul's welfare you should be honest. What if you succeed in fooling men into thinking your religion is real when it is false? Eventually you fool yourself as well. In Revell, it is really tragic but many are victims of themselves. All of these sincere but wrong people are described as to their final position in Matt. 7:22,23, "Many will say to me in that day, Lord, Lord have we not prophecied in thy name? and in thy name have cast out devils? and in thy name done many wonderful works? And then will I profess unto them, I never knew you: depart from me, ye that work iniquity." Christ would have nothing to do with them "For He knew what was in man."

A person whose life is dominated by what he wants is a self-centered person who walks "according to the course of this world, according to the prince of the power of the air, the spirit that now worketh in the children of disobedience; Among whom also we all had our conversation (way of life) in times past in the lusts of our flesh, fulfilling the desires of the flesh and of the mind; and were by nature the children of wrath, even as others." Eph. 2:2,3. Unsaved people are those who live after the dictates of their flesh, lusts, desires and mind. The unsaved may or may not have a form of religion, but they are lost either way. They don't realize it but "they are of their father the devil and the works of their father they do." The great religious leader Nicodemus came to Christ only to be told "Except a man be born again he cannot see the kingdom of God". John 3:3. Sin has the rule, dominion, lordship and mastery over the unsaved. "Sin hath reigned unto death." They are in bondage and cannot free themselves. The glorious gifts of repentance and faith in the Lord, who breaks the power of cancelled sin and sets the prisoner free, His blood can make the foulest clean."

But a person who knows the risen, redeeming Lord is no longer under the dominion of sin. Rom. 6:14 says, "For sin shall not have dominion (rule, or lordship) over you." The reason "being there is a new Lord on the throne of that person. King Jesus is the ruler. There is no such thing as a Christian living habitually in sin because the sin principle has been taken care of. It does not change a bad fruit tree to treat the bad fruit. One must try to get to the root of the problem. When a person is saved the dominion of sin is replaced by a good root - the dominion of Christ. So, a saved person's new nature desires to obey God rather than man. He seeks a holy life for God's glory.

Flue-Cured Tobacco Allotment Quota Continued

Marketing quotas and price supports will continue in effect for the 1974 crop of flue-cured tobacco and the national marketing quota and acreage allotment will be increased by 10 percent to meet increased export demand, Secretary of Agriculture Earl L. Butz announced today.

Department officials pointed out that in response to requests of grower groups, the 1974 crop quota was determined and announced earlier than usual to permit holding the grower referendum prior to the opening of the auction sales. Exports in recent months have exceeded substantially the estimates used in determining the amount of the 1974 crop quota. During the first five months of the current marketing year (July-November) exports totaled 268 million pounds, farm-weight basis, 18.4 percent above the correspondmonths a year earlier. In view of this consideration has been given to increasing or terminating the 1974 crop quota.

The Department announced July 3, 1973 (USDA Press Release 2039-73) that the national marketing quota and the acreage allotment for the 1974 crop would be the same as for the 1973 crop. The amount of the national marketing quota will now be increased from 1,179 million pounds to 1,297 million pounds. The national acreage allotment will be increased from 635,922 acres to 699,514 acres. Notice to individual farm poundage quotas and acreage allotments will be mailed to farm operators by local Agricultural Stabilization and Conservation Committees as soon as adjustments can be made to reflect undermarketings of 1973 farm quotas which exceeded overmarketings by about 30 million pounds, 15 million pounds more than the net undermarketings for the 1972 crop.

Flue-cured tobacco is grown in Florida, Georgia, North Carolina, South Carolina and Virginia (and to a small extent in Alabama).

Farm Bureau Holds Monthly Meeting

The Appomattox County Farm Bureau held its monthly board meeting January 21.

Mr. Dwight Atkins, Communications Director, introducted Mr. Lionel Boger, Communications Director between the county and state Farm Bureau organizations. Mr. Boger asked pertinent questions for board members ideas and suggestions of ways of improving service to the membership and ways of getting more information to them.

The Farm Bureau now has a state pin. Earl Pickett, past president of the Appomattox organization, presented one to Mrs. Bertha Jones, Seretary-Treasurer, for her outstanding services during his term of office.

The board voted to include in the budget an amount to help finance the programs of the Women's Committee.

It was also voted on and passed to have a covered dish supper April 20, at 7 p.m.

The Women's Committee - Mrs. R. K. Martin, Mrs. John Hix, Mrs. G. D. Gilliam, Mrs. Richard Krantz and Mrs. Bertha Jones met also and formulated their activities for the year. They served refreshments after the meetings which were enjoyed by all.

Farm Bureau members be sure to file your 1972 gas usage with your distributor right away so you will be sure of a gas allotment. For more information contact the office of a board member.

CONSERVATION ON GOLF COURSE PAR FOR CONSERVATION DISTRICT

"If your problem relates to soil and water, most likely SCS technicians serving the Robert E. Lee Conservation District can help you," says Mike Torrence, Supt., Falling River Country Club. Wet spots in our fairways and greens could not be maintained with our machinery and were a real nuisance to golfers. Since 1966 we have installed about 1,000 feet of underground drains with the help of John Goin and other Soil Conservation Service technicians. We, also, developed two springs and have continuous gravity flow fountain service The irrigation pond, already built by the former owner with SCS engineering assistance, helps keep the course green.

"Conservation practices applied where needed on recreation land, farmland or nonfarmland seem to be a profitable investment," Torrence added.

ACS Names State Crusade Chairman

John P. Fishwick, President and Chief Executive Officer of Norfolk and Western Railway Company in Roanoke, will serve as the American Cancer Society's 1974 State Crusade Chairman.

The goal for the April educational and fund-raising Crusade in Virginia is $1,800,000. A total of $1,682,406 was raised in the 1973 Crusade. The theme for the 1974 Crusade is "Volunteers are the Key to Cancer Control."

As Crusade Chairman for the Society's Virginia Division, Mr. Fishwick will give the keynote address at the Crusade Leaders' Conference to be held Friday, February 1, at the Hotel Roanoke in Roanoke, His topic at the 12:30 p.m. luncheon session will be "Volunteers are the Key." Approximately 125 volunteers from 30 local Units are expected to attend.

Mr. Fishwick is a native of Roanoke and a graduate of Roanoke College and Harvard Law School. He joined Norfolk and Western in 1945 as Assistant to the General Solicitor and rose through successive positions to General Counsel, Vice President, Vice President - Law, Senior Vice President and Director. In 1968, he became Chairman of the Board and Chief Executive Officer of Erie Lackawanna Railway Company, President of Dereco, Inc., and President of the Delaware and Hudson Railway Company. He assumed his present position in 1970.

How Much Is Comfort and Safety Worth To You?

Is it worth 39¢ per day more to drive a large car?

Sure, we sell small cars. The Great Little Pinto, The Economical Maverick and the All New Mustang II. But we also sell the intermediate Torino and full-size beauties like Galaxie, LTD and T-Bird. That's why when some folks decide against a large car because they think they'll save a lot "on gas alone" with a small car. . . they should consider the following article printed in the Richmond News Leader in December of 1973.

Small Car Dangers:

News reports indicate that many Americans, concerned about gasoline shortages, have begun trading down to compact and economy model automobiles that get better gasoline mileage. Safety experts have a point when they warn that occupants of small cars face distinct disadvantages in case of accident.

According to a recent study made by the Insurance Institute for Highway Safety, the chance of injury to occupants of cars increases 2.5 per cent for every 100-pound decrease in car weight. The study also found that small cars are more likely than large cars to be involved in single-car crashes, with a corresponding greater chance of injury. Cars used in the study included American-made compact and sub-compact models weighing 3,100 pounds or less. Films made by the institute disclose that when involved in a head-on collision, the occupant of a large sedan has less chance of injury or death than the occupant of a sub-compact.

Here is a Fair Analysis of Gas Savings

	Average small — economy car	Average intermediate — full size car
Miles per gallon	20	12
Miles per year	10,000.	10,000
Gallons consumed	500	833
Cost per gallon (Regular low-lead)	42.9	42.9
Gas cost per year	214.50	357.36

That amounts to $142.86 a year saved with the average small car. Only $2.75 per week or less than 39c a day. It's really a small amount for you to enjoy the luxurious surroundings, power options, safety and prestige of a larger automobile.

We believe people should buy the size car they want, this is their privilege. We show these articles and statistics with the idea that all factors should be presented and car buyers need to weigh these findings before deciding that gasoline mileage is the most important factor in a new car purchase.
